Laser Guarantee: All Finch papers in 24/60 lb. and heavier are guaranteed for laser printing. If defective paper causes poor runnability, we will replace the paper or provide a prompt refund limited to the value of the paper. The printer is responsible for using proper printing and trimming techniques and for using suitable packaging and storage conditions. The Finch grade selected must meet the original equipment manufacturer's (OEM) guidelines. The mark of responsible forestry SW-COC-000934. © 1996 Forest Stewardship Council A.C. Summer 2008.

The Finch Digital portfolio also includes Finch Xerographic, Business Card Cover and high-speed Inkjet papers.

To purchase Finch Digital Papers or to order trial packs, please visit : www.finchpaper.com for links to distributors and e-commerce sites.

Choosing an uncoated digital paper

Choose a paper to meet your needs based on how smooth you want it to feel, how bright you want it to look and consider your budget and environmental message.

Be sure to look at a paper's formation. Hold a sheet of paper up to the light and see how the fibers within the sheet are distributed. A high-quality paper will have an even formation resulting in a smooth printed image with less show through.
