# Choose Finch Uncoated Digital Papers

Finch digital papers are uncoated, so they have a brighter – more natural – look for digital printing.

They offer a super-smooth surface with superior environmental attributes plus affordable, efficient weights and sizes to maximize productivity and profitability.

For a house sheet that is a natural fit for you and your customers, choose Finch.

Finch Digital Papers are guaranteed to run on all electrophotographic and inkjet copiers, printers, and digital production presses. If defective paper causes poor runnability, we will replace the paper or provide a prompt refund limited to the value of the paper. The printer is responsible for using proper printing and trimming techniques and for using suitable packaging and storage conditions. The Finch grade selected must meet the original equipment manufacturer's (OEM) guidelines.

\*Finch Fine ID scored 100% ElectroInk adhesion during trials at RIT. Your results may vary depending on press and environmental conditions.

- The Finch Digital portfolio also includes:
- Finch Xerographic
  - Business Card Cover
  - High-speed Inkjet papers

To purchase Finch Digital Papers or to order trial packs, please visit [www.finchpaper.com](http://www.finchpaper.com) for links to distributors and e-commerce sites.
